See your chosen textile and furniture combinations from all angles, rotate, zoom in and out...and then request your selection using our complimentary sample cutting service, delivered quickly to your door via Express Post.

**Our Product Visualiser is a free selection tool for all users easily accessed via our website... no logins required.**

Scan the QR code with your device to try out our Product Visualiser!

## WORTLEY DIGITAL SAMPLE LIBRARY

We have created the Wortley Digital Sample library featuring online catalogues of our products.

Browse our digital ranges, turn the pages just like a physical catalogue, then order complimentary cuttings....furnishing made easy for the professional and the consumer.

**Free for all users and instantly available 24/7 directly from our website**

Scan the QR code with your device to browse the Digital Sample Library

# WORTLEY

Textiles since 1953

## BRAND PROFILE

Wortley Group is one of Australia's leading wholesale furnishing houses, supplying residential and commercial fabrics, leather, drapery, vinyl and care products to the Australian and New Zealand markets for over 70 years.

The company is 100% Australian family owned.

Wortley also represents exclusive global brands on an indent basis.

### Stock Supported Offer - Ex Melbourne Warehouse

Wortley branded textiles are heavily stocked in Australia and offer an extensive range of upholstery, drapery, leather and vinyl. Wortley textiles are known for their quality, consistency and value. We constantly review global trends and develop products to meet the unique needs of the Australian environment.

- \* Residential and Commercial Upholstery
- \* Residential and Commercial Continuous Drapery
- \* Indoor and Outdoor Commercial Vinyls
- \* Commercial Leathers

Suitable for high wear environments including hospitality and aged care, Barrier Plus upholstery fabrics feature a moisture barrier that prevents liquid stains from penetrating into the cushion. For further protection, a stain resistant formulation is impregnated into the fibres ensuring spills bead off the surface. Environmentally friendly and safe for humans and pets, Barrier Plus fabrics are held in stock for your convenience.

**BarrierPlus**

STAIN & MOISTURE RESISTANT FABRICS

Tasman Leathers are produced on the east coast of the beautiful North Island of New Zealand and are a leading global leather tannery. Stocked in our Melbourne warehouse, Tasman leathers are used worldwide by leading automotive, furniture and fashion brands. Tasman is best known for their Natural Leather ranges, which truly embrace the beauty of oiled and waxed leathers. All leathers are REACH certified, a global standard ensuring that all products are tested safe for humans and the environment. Tasman Tanning practice sustainable production processes through recycling, purification and efficiency in all elements of their manufacturing facility.

**TASMAN.**  
LEATHERS OF  
NEW ZEALAND.

Wortley and Austex have a long-standing successful association which combines the resources of both organisations with the development and marketing of Australia's leading coated fabric brand. Austex Commercial Vinyls are stocked in our Melbourne warehouse and offer a broad range of outdoor, easy clean, solution bleach cleanable, antimicrobial and antibacterial vinyl that meet the flammability requirements of the commercial, marine and outdoor categories. Tested to the highest commercial levels, Austex vinyls are the benchmark in consistency and product quality.

**AUSTEX**  
FABRICS

Austex Fusion Commercial Prints feature an extensive library of digital designs. All designs can be printed on multiple different upholstery weight base cloths. The base cloths are all waterproof, solution bleach cleanable and developed to resist stains, spills and bacteria...a perfect choice for healthcare and commercial hospitality environments. Plus all are AS1530 Part 3 compliant.

**FUSION**

Printed Fabrics

Pelle Leather Care Products are the widest selling specialist leather care products in Australia and New Zealand. Pelle is the only leather care product that guarantees you can "double the wear life of your leather" by using the products according to directions. A fabric care range is also available. Stocked in Australia for immediate dispatch.

## Indent Brand Offer -

Please allow 2 - 3 week delivery from our global partners

Ashley Wilde  
*designs*

Ashley Wilde is a global market leader in soft furnishings, offering stylish coordinated collections. From its UK headquarters, a dedicated design team carefully curates stunning textiles for window or soft furnishing applications. Ashley Wilde features of prints (printed in UK), jacquards and weaves.

 **CRYPTON**  
FABRIC INTELLIGENCE

As a key partner to Crypton USA, Wortley distributes the largest Crypton collection available in Australia and New Zealand. With today's focus on health, our waterproof, bleach cleanable fabrics are in demand and Crypton remains the benchmark globally for high performance textiles.

K A I

Kai is a vibrant UK sourced collection of soft furnishings and upholstery fabrics. Featuring inspirational and unique designs, Kai sources creative and complex textures and weaves from leading European mills and curates them into a sophisticated collection. The brand features beautiful woven fabrics, exquisite prints, embroidered silks and sumptuous velvets.

L I N W O O D  
Fabrics & Wallpapers

Sourced from the UK, Linwood offers a wide variety of exclusive European designs, offered in superbly presented collections. Widely appealing jacquard designs and plains are coordinated with unusual fabric constructions.

penelopeoggi

Founded in 1988, Penelopeoggi is one of the leading premium leather distributors in Europe. With over 450 colours across 19 ranges, the strength of the brand is its reliability, relentless research for new ideas and technological innovations. Wortley is the exclusive Australian and NZ distributor.

 **SARA MILLER**  
LONDON

A luxurious lifestyle brand celebrating a love of playful prints and vibrant colours inspired by Sara's passion for travel. This is a sumptuous collection of luxury wallpaper and fabrics for soft furnishings, curtains and upholstery. Sara Miller designs can be found across homeware, gifts, stationary, watches, handbags and luggage, offering a colourful and playful approach to everyday life. Wortley are the key distributor of the soft furnishings element of this decorative brand.

Willbro  
*Made in Italy*

Willbro Italy features a collection of textures and weaves that are exclusively designed by Wortley and produced in Italy. With a focus on natural fibres and Italian colour trends, Willbro Italy provides a window into Europe with a "Made in Italy" guarantee.

Born in Walthamstow in March 1834, William Morris founded the Arts and Crafts movement in Britain. William Morris At Home is the official partner of the William Morris Gallery, using all original artwork pieces found in the William Morris Gallery archive. Inspired by nature William Morris designed some of the most recognizable and iconic textile patterns of the 19th century. William Morris At Home takes inspiration from Morris's beautiful home "Kelmscott Manor", offering a broad selection of timeless prints, jacquards and embroideries, along with stunning silk jacquards and metallic printed wallpapers found in the archive. All of the artwork used is taken from the original designs found in the William Morris Gallery archive.

Crypton offers a complete stain, moisture, mildew, bacteria and odour resistant solution. Easily maintained, Crypton remains the benchmark for high performance waterproof textiles and plays an active part in creating healthier, more sustainable indoor environments.

All Crypton fabrics are FREE OF PFAS, PFOS, PFOA, Formaldehyde, Heavy Metals, Phenols, Phthalates, or halogenated flame retardants. Crypton is GREENGUARD Gold Select Certified.

All Wortley Crypton fabrics comply to the AS/NZS 1530.3-1999 flammability standard.

# SPECIALIST FABRIC PROTECTION

The following treatments are available on all suitable fabrics offered by the Wortley Group.

Simply specify when pricing your fabric order.

The following treatments on Wortley Group fabrics are covered by our warranty

Please note: price includes shipping to and from the applicator

Treatment	Description	Price per Mt
<b>Wortley Fabric Protector</b>	<p>For enhanced protection and soil resistance, use our Wortley Fabric Protector.</p> <p>It is applied through an advanced "emersion" finishing process prior to the fabric being upholstered.</p> <p>Formulated in Australia, it is applied right here in Melbourne. Its repellent properties fully encase the fibres of the fabric, ensuring extended protection against liquid based stains. Any unfortunate accidents will remain on the fabric's surface longer so they can be easily wiped or blotted away.</p> <p>As a water based product, it is completely safe for humans and pets alike.</p> <p>PFOS + PFOA Free</p> <p>It is a simple, cost effective way to enhance the usability and life of your fabric.</p> <p>Should you require a complete waterproof liquid barrier solution, please use Wortley Barrier Plus.</p> <p>Please note: Fabric Protector is not suitable for velvet constructions.</p> <p>Minimum Order: 5mt</p>	\$8.00
<b>Wortley Barrier Plus</b>	<p>Barrier Plus is a fabric process that ensures that liquid stains cannot pass through the fabric and into the cushion. Applied to the back of the fabric, this barrier is safe as well as being both environmentally and user friendly.</p> <p>For additional protection, we also include the Stain Protector formulation on the surface to make spills easier to remove.</p> <p>Barrier Plus has fire retardant and antimicrobial additives, ensuring its suitability for a diverse range of applications where liquid protection and easy clean characteristics are important.</p> <p>Please note: Barrier Plus is not suitable for velvet constructions.</p> <p>Minimum Order: 10mt</p> <p><b>BarrierPlus</b> STAIN &amp; LIQUID REPELLENT FABRICS</p>	\$17.50
<b>Wortley FR Treatment</b>	<p>This water based fabric FR treatment provides additional general FR protection in the case of a fire. Our FR treatment is applied using an emersion process that encapsulates the fibres, before being heat cured.</p> <p>Fabrics are processed here in Melbourne with a 2 week lead time.</p> <p>Treatments are offered with a Certification of Application.</p> <p>Should industry specific flammability standards be required, please discuss to see if this application meets requirements.</p> <p>Minimum Order: 10mt</p>	\$8.00

Austex Commercial Fabrics have over thirty years experience developing and supplying high quality vinyl upholstery suitable for the commercial, marine and healthcare markets. Tested to the highest commercial levels, Austex vinyls are the benchmark in consistency and product quality.

As their exclusive Australian vinyl distributor, Wortley stocks a wide range of Austex products, including Pellan Ultimate, Studio Encore, Tessuto, Linea, Urban and Marlo.

Austex offers the latest in coated fabric technology!

All Austex coated products are lead, formaldehyde and chromium free!

Austex Fusion Commercial Prints feature an extensive library of designs that can be printed on four different base cloths.

All base cloths are waterproof and developed to resist stains, spills and bacteria.....a perfect choice for healthcare and commercial hospitality environments.

All Fusion base cloths comply to the AS1530.3 Flammability Standard and are solution bleach cleanable.

Simply select a base fabric together with your favourite Fusion design to create a unique combination for your next project.

The colour and texture of each design will vary slightly depending on the base cloth chosen.

Available designs and specifications can be viewed at  
[www.wortleygroup.com.au](http://www.wortleygroup.com.au) or scan the QR Code below.

Base Cloth	Description	Cut Price per M
<b>Chenille</b>	A soft and luxurious base cloth that will exceed your expectations for comfort and performance. This beautiful base fabric retains the performance characteristics of Fusion but features the added comfort of chenille yarns to further enhance the feeling of comfort and wellbeing.	\$75.00
<b>Eco P.U</b>	2025 Release: Eco P.U is the ultimate upholstery fabric. This printable coated fabric is like no other product on the market today. The impenetrable waterproof barrier provides resistance to chemicals and stains while protecting the surfaces from abrasion and scuffing. Its smooth and unique surface coating does not absorb liquids or retain dampness, ensuring a dry and low maintenance seating environment.	\$110.00
<b>Suede</b>	Suede captures the look and feel of genuine suede. The supple nap is designed to pamper, providing a sense of warmth and luxury appeal. The soft, plush hand is matched by its durability and ease of care in commercial and healthcare environments.	\$75.00
<b>Weave</b>	A robust base cloth recommended to withstand the rigours commonly found in healthcare and commercial applications. Weave offers excellent strength, durability and performance characteristics making it ideal in all high traffic areas.	\$65.00

## TASMAN. LEATHERS OF NEW ZEALAND.

### Sustainable Commercial Leathers from New Zealand ALL IN STOCK!

- \* All Tasman leathers are produced on the East Coast of the beautiful North Island of New Zealand
- \* Tasman practice responsible sourcing where all raw materials are from the same NZ cattle farmers, where animals are grass fed and raised for the premium NZ food industry.
- \* Tasman produces leather for leading European car makers, shoe and garment producers along with furniture manufacturers worldwide.
- \* Tasman is a member of the Leather Working Group (LWG), ensuring compliance and certification to environmental and sustainable production processes and standards. This ongoing commitment has resulted in millions of dollars being invested to enhance water, power and processes used in the Tasman tannery.
- \* 83% of energy consumed by the tannery is generated from renewable sources including hydro and wind.
- \* All leathers have been produced using chemicals that are fully REACH certified...a global standard that ensures products are tested to be safe for humans and the environment.

All leathers are guaranteed to contain no holes or brands, ensuring the best cutting yields.

Wortley are the exclusive Australian distributors of Tasman Leathers.

Product	Type	Price per M2	Origin	Usage
Burnham	Full Grain/Vacuum Dried/Aniline	\$95.00	NZ	General Commercial
Coronet	Semi Aniline/Full Grain	\$95.00	NZ	General Commercial
Mad Dog	Waxed Semi Aniline/Full Grain	\$95.00	NZ	General Commercial
Matisse	Pigmented/Full Grain/Sanitised	\$75.00	NZ	Heavy Commercial
Monarch	Oily Pull Up/Full Grain	\$95.00	NZ	General Commercial
Settler	Waxy Aniline/Full Grain	\$95.00	NZ	General Commercial

Effective from 1st May 2025

All prices are subject to 10% GST

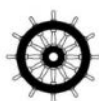

Pelle is the preferred leather care system of Tasman  
and Wortley Group.

## TENNANT PLUS LEATHER - IN STOCK!

### High Performance New Zealand Leather

- \* Produced using high quality hides from New Zealand with a subtle grain and highly durable finish. It's high UV pigments and consistent finish ensures maximum yield and consistency.
- \* Features built-in Sanitized® material protection that works as a barrier against microbial attacks reliably, permanently and safely.
- \* Tested to AS1530.3 Flammability and AS3837 Vertical Surface Standard
- \* Fully Wheelmark certified for the international marine industry
- \* REACH Certified - all chemicals used in the production of Tennant Plus are certified safe for humans and the environment.
- \* Tannery is certified by the Leather Working Group (LWG) ensuring global environmental and sustainable production processes.
- \* Proven leather in Heavy Commercial Applications all over the world in the past 15 years
- \* Stocked in our Melbourne facility and is available in **Premium** and **Standard** hides....  
Premium hides are guaranteed to have no holes or brands and have maximum cutting yield  
Standard hides are exactly the same quality but may have a few natural characteristics that prevent them from being graded Premium and are sold at a substantial discount!

Product	Finish	Grade	Price per M2	Average M2	Origin	Usage
Tennant Plus	Pigmented	Premium	\$65.00	5m2	NZ	Heavy Commercial
Tennant Plus*	Pigmented	Standard	\$50.00	5m2	NZ	Heavy Commercial

\*Subject to availability  
Effective from 1st May 2025

All prices are subject to 10% GST

## EMPIRE - IN STOCK

Using only beautiful New Zealand hides, Empire is a high performance commercial grade leather that is suitable for a wide range of applications including commercial and domestic furniture, caravans, marine and the automotive market.

Offered in a broad palette of colours, Empire has a durable and easy clean finish that resists soiling and general grime, making cleaning an easy and simple process.

Product	Type	Price per M2	Average M2	Origin	Usage
Empire	Pigmented	\$55.00	4.3m2	NZ	Heavy Commercial/Automotive

Effective from 1st May 2025

All prices are subject to 10% GST

Pelle is the preferred leather care system of Tasman and Wortley Group.

Founded in Italy in 1988, Penelopeoggi is a leading premium leather distributor in Milan.

With over 450 colours available across 19 ranges, the strength of the brand is its quality, reliability and performance.

Wortley is the exclusive distributor for Penelopeoggi in Australia and NZ.

Pelle Leather Care Products are recommended for the care and maintenance of your valuable leather furniture.

Visit [www.wortleygroup.com.au](http://www.wortleygroup.com.au) for more information.

All Penelopeoggi leather is covered by the Wortley Group 3 Year Warranty.

Complimentary cuttings are available by request from our website or Ph: 1300 36 18 36

Pellé Care Products has been developing and manufacturing leather and fabric care products since 1985.

Their products have become the international benchmark for the care and protection of leather and fabric upholstery and in some cases have been used in the setting of official standards for this sector.

All Pellé products are non-toxic and safe for use on everyday household and personal clothing items, with some products containing anti-fungal and anti-microbial agents for you and your families protection.

Plus all Pellé products are biodegradable and safe for disposal in public water systems.

Pellé is the choice of many leading furniture suppliers and is the preferred care system for Penelopeoggi, Tasman and Wortley leathers.

## FABRIC PERFORMANCE/USAGE

To assist customers with choosing a fabric that will suit their needs, all Wortley Group branded samples are labeled with relevant product information including composition and the performance category. Every Wortley Group fabric is tested for seam slippage, abrasion resistance, colour fastness to light, cleaning and pilling. All fabrics confirm to industry standards.

### Wortley Performance Ratings

After considering the results of our independent testing program, Wortley applies a "performance" or "usage" rating to each product. Please note that this is based on more than a simple Martindale Abrasion result. Bold industry claims are often made regarding Martindale Abrasion testing but this should only be considered a guide to durability.

Please observe the ratings carefully as they form the basis for our 3 Year Wortley Warranty.

Categories are as follows:

**LD - Light Domestic:** Suitable only for upholstery intended for occasional, decorative or light usage.

**GD - General Domestic/Light Commercial:** Suitable for most styles of upholstery for general daily domestic use.

**HD - Heavy Domestic/Medium Commercial:** Suitable for furniture subjected to heavy domestic or medium commercial use, including motion furniture.

**C - Commercial:** Suitable for furniture subjected to commercial use.

**HC - Heavy Commercial:** Suitable for upholstery normally subjected to heavy commercial use, including bar stools, tub chairs and dining chairs.

**D - Drapery:** All fabrics which are rated as D should only be considered for drapery applications.

**O - Outdoor:** Fabrics are woven using UV resistant yarns and are water and dirt resistant.

### Abrasion Testing

The Martindale Abrasion machine tests durability of woven fabrics and the STOL Abrasion machine tests the durability of knitted fabrics. In laboratory conditions, fabric samples are continuously rubbed until the yarn is observed to fatigue. The results are considered a guide to the durability of the covering.

### Colour Fastness

All Wortley branded fabrics are tested to industry standards however it is important to note that no fabric is 100% colour fast and that it is impossible to prevent colours fading if adequate precautions are not taken. Winter sun which sits lower in the sky can cause the most damage, particularly when protective curtains have been pulled back to warm the room.

### Chenille Yarn Fabrics

Chenille fabrics feature a pile that will move and flatten during use. This can result in some visual shading on the surface of the fabric as the light refracts of the pile. The appearance change is a characteristic of chenille and is not considered a fault.

### Fading

There are two common causes of fading/bleaching of upholstery fabric.

Sun damage can cause fading, especially in bright colours depending on the degree of exposure. Some fabric damage will be evident where fading is most pronounced. Constant exposure to sun rays will break down fabrics, causing them to become brittle and more susceptible to breaking.

Fading or "bleaching" can also be caused by certain types of medications taken orally or via a cream applied directly to the skin. These medications can transfer to the upholstery through the skin causing a bleaching or staining effect. Known medications that can cause this include treatment for acne, arthritis, high blood pressure, aspirin based medication and chemotherapy treatments. Professional steam cleaning on a regular basis will help alleviate the impact. Fading should not be considered a fabric fault.

### Oxidation

Fumes from chimneys, auto exhausts, open fires, gas fires, stoves or whenever combustion is present, produce a mild sulphuric acid. This matter is absorbed by or clings to the upholstery fabric, and can contribute to discolouration and deterioration of the fabric. This should not be considered a fabric fault.

### Pilling

Pilling can occasionally occur as a result of normal daily wear. There are many variables that can trigger pilling, including climatic conditions, atmospheric purity and the user environment. Even specific clothing types (fleecy tracksuits etc) can transfer pills from the clothing to the upholstery fabric.

As the fabric surface is rubbed through use, a single or small group of loose fibres on the surface begin to twist, forming tiny balls or "pills". Often the catalyst that starts this process is a foreign fibre or a speck of dirt.

Pilling can be successfully removed with battery operated pilling tools available from most haberdashery stores. De-pilling only removes unsightly loose surface fibres and does not affect fabric performance.

Please note that pilling should not be considered a fabric fault.

### Pets

Wortley Group strongly advises against allowing pets on furniture. Pet claws can catch in the weave, causing damage as well as accelerated wear, pilling and heavy soiling. Should there be evidence of pets on the furniture, our 3 Year Wortley Warranty will be voided.

# FABRIC CARE AND CLEANING

## 1. Conditions to Avoid

- \* Prolonged exposure to direct sunlight
- \* Any heat source (ie radiator or heater)
- \* Sharp objects (buckles, jewellery, keys, pet claws etc)
- \* Common cleaning materials, paints, solvents, nail polish, dyes and felt pens.
- \* Perspiration, grime, body oils, sun screen, skin tanning products, hair creams or gels will damage fabric if not removed frequently from areas in direct body contact. Ensure that arms, head rests and seat cushions are given extra attention when cleaning and protecting.
- \* Certain medication can also cause damage to fabric via direct body contact.

## 2. Things to Do

- \* Retain any information or manufacturer's brochures about your selected fabric for future reference.
- \* Rotate reversible cushions regularly.
- \* Vacuum your furniture regularly with the appropriate attachment.
- \* If suitable, use the Pelle Fabric Care Product range to clean and protect your fabric.
- \* Remove any excess spills or soiling from the surface of the furniture as quickly as possible.
- \* Do not use common household detergents.
- \* Do not wet filling.
- \* Do not scrub with a stiff brush.
- \* Allow thorough drying before re-use.
- \* Dry Clean only P30
- \* Refer to Washable Fabric Care info if your upholstery fabric is promoted as being washable.

If you have any questions about how to care for your fabric, please do not hesitate to contact the Wortley team for advice!

## Spot Cleaning

**Our spot cleaning advice is offered in good faith and should not be considered as a guarantee that all stains may be removed. For severe stains or stains on more decorative yarns including silk, please consult a professional upholstery cleaning company.**

Treat spills as soon as possible. Test on hidden area to ensure fabric and colour are not removed. Gently scrape any soiling or mop any liquid from the surface of the fabric. Use of soap or detergent and water should be approached with caution since overzealous rinsing to remove soap residue may result in over-wetting, water marking and possible wetting of substructure (this may create other stains or damage).

**Non Oil-based Stains:** Use warm water and non toilet soaps which do not contain optical brighteners (consider Velvet Soap, Luxe Flaxes, Softly). Mix a small amount of soap and water solution and apply to the stain, rubbing very gently. Blot dry with a clean towel. Apply cool water (preferably distilled water) and blot dry again. Then with a hair dryer working out from the centre of the stain, dry quickly to prevent rings forming. It is generally preferable to clean whole panels of fabric in this way rather than trying to spot clean specific areas.

**Oil-Based Stains:** Following the same basic guidelines as above, apply a proprietary brand solvent based cleaner and try to clean in panels rather than spot cleaning. A helpful industry "secret" for spot removal of oil based biro marks is the application of conventional hair spray.

**Alcoholic Beverages:** After the moisture has been blotted up, dab at the stain with a clean cloth dampened in rubbing alcohol. Then blot repeatedly with liquid detergent mixed with cool water. Blot dry with a towel. Dab again with clear cool water and blot dry.

**Blood:** Mix one teaspoon of ammonia in a cup of cold water and apply sparingly to the spot. Repeat the procedure until the spot is gone. Then dab the area with cool water and blot. Wait 15 minutes and moisten the area again with white distilled vinegar. Blot thoroughly with a dry towel.

**Chewing Gum:** Rub an ice cube over the gum to harden it, then scrape off the excess with a dull knife.

**Chocolate:** This is a combination greasy/non-greasy stain. Scrape excess away, then go over the spot with cool water mixed with a liquid detergent. Blot thoroughly with a dry cloth.

**Coffee and Tea:** Sponge with warm water. Apply warm glycerine and leave for 30 minutes. Flush out with water and dry quickly.

**Cosmetics:** Sponge with warm water. Apply warm glycerine and leave for 30 minutes. Flush out with water and dry quickly.

**Fruit and Fruit Juices:** After excess is blotted up or scraped away, blot the spot with cool water. If the spot remains, add liquid detergent and a drop of vinegar to the water. Dab the spot with the mixture until there is no trace of a stain. Then go over the area lightly with clear water.

**Grease (including Hair Grease & Oil):** Scrape away excess if necessary, then dab repeatedly at the stain with dry cleaning fluid. If any stain remains, go over the area with a lukewarm mixture of liquid detergent and water. Always make sure you use a clean portion so you don't put the stain back into the fabric. Lastly, go over the area with a clean cloth moistened with cool clear water.

**Ice Cream:** Scrape away excess and apply cool water mixed with liquid detergent, making sure not to saturate the fabric. Blot fabric with a dry cloth and let dry.

**Ink:** Moisten with warm glycerine and leave for 10 minutes. Apply liquid detergent and brush lightly. Flush out with water and dry quickly.

**Iodine:** Rub with cut lemon before sponging with warm water. Apply small quantity of detergent with clean cloth. Blot stain then remove soapy residue with cloth wrung out in warm water and white vinegar solution (1/3 vinegar to 2/3 water).

**Milk and Vomit:** Blot or scrape away the excess, then take a clean soft cloth and blot. Apply clear cool water to the area, blotting frequently. Then blot with a detergent solution to which a small amount of ammonia has been added. Blot dry, wait a few minutes before blotting again with a cloth moistened in rubbing alcohol.

**Soft Drinks, Sweets & Syrups:** Sponge with water, add warm glycerine and work gently into stain. Flush out with water and dry.

**Shoe Polish:** Apply liquid paraffin to loosen the stain, then sponge with cool water.

**Urine:** It is important to treat this stain right away before it dries. Otherwise the urine may react with the fabric dyes and cause permanent discolouration. Dab at the stain with a solution of white vinegar and water, then blot dry. Then apply a mixture of liquid detergent and cool water, blotting frequently with a dry cloth to avoid saturating the fabric.

**Water Spots:** Blot thoroughly and then dampen the entire spot with clear white vinegar. Wait a few minutes for the area to dry. Moisten again with clear water, blotting with a dry cloth after every application of the damp cloth. If the fabric has a pile, brush in the direction of the pile when it is dry.

### Professional Fabric Servicing

Wortley Group recommend that water-based "Fluro Chemical" type fabric protectors (such as DuPont Teflon and 3M Scotchguard) be applied by licensed applicators only. Professionals applying fabric protectors must always pre-test to check the suitability of the fabric.

Check your care label first to see if a mill-applied protection was incorporated during fabric manufacture. It is not necessary to apply an after-market protector over mill-applied protectors on new fabrics.

**Fabric protectors do not eliminate the need for vacuuming, routine cleaning or proper care.** They will however make spot cleaning and vacuuming quicker, easier and more efficient between professional cleans and keep your fabric looking cleaner longer, as well as extending its life.

**Warning:** do not treat velvets and pocket weaves with stain repellent treatments. Some high pile velvets and pocket weave jacquards may change in surface character if stain repellent treatments are applied. Extra care should be taken to pre-test for these fabrics.

**Professional Cleaning Frequency:** This is determined by the furniture use, your own maintenance, upkeep and environmental conditions. For most family lounges, overall cleaning is recommended every 12 months.

### General Curtain Care

- \* Protect against sunlight with lining or other shading devices.

- \* Remove hooks, rings and trims before cleaning.

- \* Gently vacuum regularly with appropriate attachment.

- \* Do not wash.

- \* Use warm iron.

- \* Dry Clean only P30

- \* Possible shrinkage 3%

**Velvet Curtain Care:** Curtaining velvet needs care in handling and use. Windows fittings coming in contact with the curtain should be avoided. Stiff brushing or strong vacuum cleaning on the reverse side of the velvet can also pull at the pile.

Draw cords and other methods of drawing without handling the curtain itself are recommended. Grasping particularly with fingernails can cause crushing and other damage. Velvet curtains should be dry cleaned.

**Movement of Curtains in Situ:** When making curtains, always allow for atmospheric movement and fluctuations in length as the result of changes in temperature and humidity.

Fabrics absorb moisture and this can result in stretching or shrinking. It is reasonable to expect as much as a 3% change in any curtain length.

For instance, a 2.5m curtain may move up or down 8cm in different conditions. Heavier fabrics, looser weaves, pocket weaves and those with thicker yarns of natural fibres will react to changing humidity.

For curtains, we recommend leaving generous hems to allow easy alteration and adjustment after hanging. We strongly recommend hanging curtains for at least 4 weeks before finishing hems.

Top quality makers avoid "exact" length curtains (ie floor touching or to a window sill). Any adjustments remain the responsibility of the maker and cannot be accepted as a fault of the fabric.

### Outdoor Upholstery Care

For those fabrics that are identified for outdoor use, the following general care instructions apply:

- \* Clean with a mild soap and water solution.

- \* Brush off loose dirt and swiftly wipe up spills before they become embedded in the fabric.

- \* Rinse thoroughly with clean water and where possible, allow to dry naturally.

- \* No fabric is totally sun "proof" so it is recommended to remove fabric from exposure when not in use.

- \* Mould can occur on fabrics exposed to the outdoors/high humidity. Mould resistant yarns can still suffer from mould if the cushions are not cleaned regularly. Mould will grow on generally soiling/dirt sitting on the surface of the fabric. Keeping your furniture clean will minimise any occurrence. If mould growth occurs, we recommend a 1:4 bleach solution to remove. Always wipe down with a clean damp cloth to remove residue.

### Washable Fabric Care

If your upholstery fabric is promoted as being washable, then the following care instructions apply:

- \* Professional washing or dry cleaning is recommended. Use gentle cycle not exceeding 40 degrees.

- \* Do not apply detergent directly onto the covers.

- \* Do not use cleaning products containing bleach or brightening agents.

- \* After washing, pull gently and reshape whilst damp.

- \* Avoid tumble drying or drying in direct sunlight.

- \* Some minor colour variation may occur as a result of washing. It is recommended to wash complete cover sets to ensure colour consistency.

- \* Allow up to 5% shrinkage

# LEATHER CARE AND CLEANING

Leather is made to be used and can be enjoyed for many years if cared for properly.

As well as using the appropriate leather cleaner, leather conditioner and leather protector from the Pellé range, there are a few other things you can do to ensure your leather remains protected and in excellent condition!

## 1. Conditions to Avoid

- \* Prolonged exposure to direct sunlight
- \* Any heat source (ie radiator or heater)
- \* Sharp objects (buckles, jewellery, keys, pet claws etc)
- \* Common cleaning materials, paints, solvents, nail polish, dyes and felt pens.
- \* Avoid use of dyed cloths unless you are sure they are dye-fast when wet otherwise dye transfer may occur.
- \* Perspiration, grime, body oils, sun screen, skin tanning products, hair creams or gels will damage leather if not removed frequently from areas in direct body contact. Ensure that arms, head rests and seat cushions are given extra attention when cleaning and protecting.
- \* Certain medication can also cause damage to leather via direct body contact.

## 2. Things to Do

- \* Retain any information or manufacturer's brochures about your selected leather for future reference.
- \* Read the instructions of the Pellé Leather Care products carefully before use, including any warnings, and use only as directed.
- \* Use the Pellé Leather Care products at intervals suggested to maintain your leather furniture. Recommended treatment is usually every three months for domestic leather upholstery, more often for high use areas.

If you have any questions about how to care for your leather furniture, please do not hesitate to contact the Wortley team for advice!

## Cleaning

### Light Cleaning - All Leather Types

Wipe down once a week with a clean, slightly damp dyefast cloth to remove dust and grime. Careful vacuuming with a suitable brush attachment is recommended for the removal of day-to-day dust, crumbs and other minor debris. On Nubuck, brush the nap up in the wear areas.

### Pigmented Top-Coated and Semi Aniline Leathers

**Deep Cleaning:** Once every 3 - 4 months, give your leather a deep clean to remove built up soiling and perspiration from the grain of your leather. We recommend the Pelle Leather Cleaner.

**Condition/Protecting:** After deep cleaning, remoisturise and protect your leather using the Pelle Conditioner/Protector. This keeps your leather soft, supple and conditioned for the flexing required in upholstery. The protector components in this product will provide excellent protection against soiling and spillages making cleaning easier and giving a soft sheen to top coated leathers.

### Pull Up and Wax/Oil Finished Leathers

**Deep Cleaning:** Do not spray cleaner directly onto the leather. Dampen a clean, dye fast cloth (cotton towel-ing is ideal) by spraying with the Pelle Cleaner. Do not saturate. Rub clean 1 panel or 1sqm at a time, keeping the cloth damp with the Cleaner as required. Leave to dry naturally and thoroughly before reuse and before applying the Pelle Revitaliser to condition.

**Conditioning:** After deep cleaning, use the Pelle Revitaliser to remoisturise and restore the suppleness and depth of colour to your leather. These leathers can dry out so make sure you use Revitaliser regularly.

## Dye Transfer

Dye from new clothing including jeans can transfer to the surface of the leather. The dye will penetrate the surface and is typically very difficult to remove, especially from lighter coloured leather. It is recommended to always wash clothes prior to use.

## Stain Removal

Remove a mark as soon as it is noticed otherwise it may become difficult to remove. If you cannot remove the mark or stain, do not persist otherwise you may damage the leather.

## Spillage Removal

Soak up fluids as quickly as possible using a dye fast cloth...remove cushions if loose. Wipe over the leather with the dye fast cloth rinsing out in cold water and cleaning as you go. Let your suite dry slowly away from direct heat or sunlight. When dry, clean and protect/moisturise with the appropriate Pelle Care products.

## Mould/Fungus/Bacterial Protection

You can help to protect your leather from mould by using the appropriate Pelle Leather Care products. The Pelle range contains Healthguard which is a full anti-bacterial, anti-fungal and anti-microbial agent providing protection against mould and bacterial contamination.

## Medication

Some drugs cause perspiration to become very acidic, causing colour loss and breakdown of pigments as well as staining resulting in severe damage to the surface of the leather. Make sure you deep clean once a month or protect your leather with a wool-blend cloth covering.

## Storage of Leather Furniture

If you are required to store your leather furniture for any length of time:

1. Clean your furniture thoroughly using the appropriate Pelle Leather products.
2. Cover furniture with breathable dye fast material such as woolen blankets, calico or cotton sheeting. Do not cover furniture with plastic or seal for long periods.
3. Store your furniture away from any direct heat or sunlight, preferably in an airy room with an even temperature.
4. Inspect your furniture every 2 - 3 months. Keep in mind that the more humid the climate, the greater the chance of mould growths.

# COATED UPHOLSTERY CARE AND CLEANING

## General Maintenance

It is recommended that coated fabrics be cleaned weekly/fortnightly using a sponge/cloth and warm soapy water. Dry with a clean cloth. This will remove dust and general soiling that can stain the product over time.

## Spot Cleaning

For spot cleaning, Wortley Group recommends a 50:50 solution of Methylated Spirits and water. Rub the affected area gently and follow with warm soapy water to remove residue. Most stains will lift off easily.

## Sanitizing/Disinfecting - Using Bleach Solutions

A 10% household bleach (Sodium Hypochloride) with 90% water solution (500ml bleach with 5L water) can be used to disinfect/sanitize the following products:

- |                 |                          |                        |
|-----------------|--------------------------|------------------------|
| * Austex Harper | * Austex Pellan Ultimate | * Austex Studio Encore |
| * Austex Jinx   | * Austex Plush           | * Austex Tessuto       |
| * Austex Linea  | * Austex Quantum         | * Austex Urban         |
| * Austex Marlo  | * Austex Soho Allure     |                        |

A 5% household bleach (Sodium Hypochloride) with 95% water solution (250ml bleach with 5L water) can be used to disinfect/sanitize the following products:

- \* Wortley Principal Plus

**IMPORTANT: After cleaning, please wipe vinyl down with a damp cloth soaked in fresh water to neutralize and REMOVE chemical/bleach residue, then dry thoroughly. Accumulated cleaning chemicals will damage the vinyl surface over time.**

## Dye Transfer

Dye transfer from blue jeans and other items of clothing can stain the surface of light coloured vinyls. It is important to treat the stain promptly using the Spot Cleaning Method. If the dye penetrates the surface of the vinyl, it will be harder to completely remove.

## General

Do not scrub with abrasive cloths, powders, household cleaners or solvents. Do not dry clean or machine wash. The hardening of a PVC surface is not considered a manufacturing defect, but is rather due to improper cleaning or the build up of soiling, perspiration and body oils.

## WORTLEY GROUP WARRANTY

Wortley Group warrants products for a period of 3 years from date of invoice, against manufacturing defects when used in accordance with our performance grading and care instructions\*

Contact Details for Registration of a Concern

Customer Care - Wortley Group: 25 Geddes St Mulgrave VIC 3170/PO Box 304 Mulgrave VIC 3170  
Tel: 1300 36 18 36 Email: [customercare@wortleygroup.com.au](mailto:customercare@wortleygroup.com.au)

Your concern must be registered within 3 years of your invoice date.

\* Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure, and for compensation for any other reasonable foreseeable loss or damage. You are entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

## WORTLEY GROUP UPHOLSTERY CARE LABELS

### LABEL A FIXED FABRIC

Do not remove any part for separate cleaning. Do not wash. Do not use solvents. Professional cleaning recommended using on site dry clean or hot water extraction. Use of inappropriate care products may cause damage and void your warranty.

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

### LABEL B REMOVABLE FABRIC

Do not use solvents. Machine wash max 40. Professional cleaning recommended using on site dry clean or hot water extraction.

Use of inappropriate care products may cause damage and void your warranty.

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

### LABEL C COATED FABRIC

Do not remove any part for separate cleaning. Do not wash. Do not dry clean. Do not use solvents.

Use of inappropriate care products may cause damage and void your warranty.

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

### LABEL D LEATHER

Do not remove any part for separate cleaning. Do not wash. Do not dry clean. Do not use solvents.

Pelle Care Products for leather are recommended. Use of inappropriate care products may cause damage and void your warranty.

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

### LABEL E CRYPTON & FUSION FABRICS

Regular vacuuming recommended to remove general soiling.

#### Everyday Spills

1. Remove Excess residue by blotting or gently lifting with a sponge
2. Use a mild soap-and-water mixture (1 tsp enzyme detergent such as Radiant, with two cups of warm water)
3. Apply the solution to the stain, gently agitate with a soft bristle brush and wait a minute or so to allow the detergent to break down the stain
4. Gently blot the stain
5. Thoroughly rinse with water. Remember that both have a permanent moisture barrier, so rinse liberally as remaining soap/cleaner will attract dirt and hinder repellency qualities.

#### Tough Stains/Spot Stains

Crypton & Fusion Fabrics can all be cleaned with a 1:9 bleach/water mixture - do not use solvents.

#### Extraction Cleaning

For overall cleaning, we recommend periodically extracting upholstery surfaces.

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

### LABEL O OUTDOOR FABRIC

Clean with soap and water. Brush off loose dirt and swiftly wipe up spills before it becomes embedded in the fabric. All fabrics will gradually "weather" so it is recommended to remove from outdoors when not in use.

Use a mild soap solution and warm water.

Rinse thoroughly.

Where possible, allow the fabric to dry naturally.

Use of inappropriate care products may cause damage and void your warranty.

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

### LABEL P WORTLEY BARRIER PLUS

Regularly vacuuming recommended to remove general soiling  
Rotate cushions regularly  
Avoid direct sunlight

#### Everyday Spills

1. Remove Excess residue by blotting or gently lifting with a sponge
2. Use a mild soap-and-water mixture (1 tsp enzyme detergent such as Radiant, with two cups of warm water), and gently sponge affected area
3. Wipe off with a damp cloth and repeat if necessary
4. Please allow to fully dry before reusing

#### Overall Cleaning

We recommend periodically cleaning using the on site hot water extraction method

[www.wortleygroup.com.au](http://www.wortleygroup.com.au)

Wortley Group Pty Ltd

Every fabric, leather and vinyl delivery will include a quantity of labels at the rate of one per metre, rounded up to the nearest 5 label strip.

For example, if you have ordered 3.5 metres, you will receive 5 labels.

The labels are designed to be sewn into seams and be accessible.

Please be reminded that current care labelling law under AS/NZ1957-1998 requires a label to be attached to EVERY separate item. If your sofa has 6 cushions, each will require a label as well as the base.

While re-upholstery is not currently covered by this requirement, it is good practice to attach the labels in the same way as required for new furniture. This protects the trader against possible claims based on inappropriate care.

## WORTLEY GROUP SOFT FURNISHING CARE LABELS

### CARE LABEL NO. 1

For use on velvet and silk fabrics.

Remove hooks, rings and trims before cleaning. Gently vacuum regularly with appropriate attachment. Do not wash. Do not iron. Dry Clean only P 30.

Possible shrinkage 3%

### CARE LABEL NO. 2

For use on viscose/acetate and other fabrics which may shrink such as bulky cottons.

Protect against sunlight with lining or other shading devices. Remove hooks, rings and trims before cleaning. Gently vacuum regularly with appropriate attachment.

Do not wash. Use warm iron. Dry clean only P 50.

Possible shrinkage 3%

### CARE LABEL NO. 3

For use on printed or dyed cotton and linen fabrics not pigment dyed.

Remove hooks, rings and trims before cleaning. Gently vacuum regularly with appropriate attachment.

Warm hand wash. Do not bleach. Do not tumble dry. Drip dry only in the shade without delay. For best results, hang curtains by their hooks to dry. Use a warm iron length-ways.

Dry cleanable P 50.

Possible shrinkage 3%

### CARE LABEL NO. 4

For use on polyester/cotton, polyester mixtures and polyester fabrics, woven or knitted.

Remove hooks, rings and trims before cleaning. Gently vacuum regularly with appropriate attachment.

Warm hand wash. Do not bleach. Do not rub or wring. Drip dry in the shade. For best results, hang curtains by their hooks to dry. Use a warm iron.

Dry cleanable P 50.

Possible shrinkage 3%

## IMPORTANT CUTTING INFORMATION

### Please read information below before cutting

#### GENERAL ADVICE

- \* Before cutting, please check that the covering supplied is the correct design, colour and quantity, and is suitable for the design of your furnishing application.
- \* Pile fabric requires a covering of calico or similar over foam to protect the back of the fabric.
- \* Natural characteristics of the covering including scar marks in leather, pile shading in velvet and cotton seeds in loomstate fabrics are not considered a fault.
- \* Variations in colour and texture may occur due to irregular nature of yarns and to the difference between various dye batches.

**NO RESPONSIBILITY, NOR RETURNS, WILL BE ACCEPTED BY WORTLEY GROUP PTY LTD IF THE PRODUCT HAS BEEN MARKED OR CUT.**

**Please review fabric for the most appropriate seam construction before sewing commences:**

- \* Woven fabric (including Chenilles): recommend 10/12 stitches per 25mm
- \* Pile fabric: recommend 8/10 stitches per 25mm
- \* Vinyl: recommend 6/7 stitches per 25mm
- \* Leather: recommend 6/7 stitches per 25mm
- \* While overlocking fabric will assist, using the correct number of stitches per 25mm is critical to the seam performance under stress
- \* 20mm minimum selvage should be taken for sewing

Where an inappropriate seam construction is used, Wortley Group Pty Ltd cannot accept responsibility for any seam slippage that may occur.

The performance of any fabric is determined by a number of factors outside the fabric's own durability and appearance retention properties, including but not limited to the quality and design of the furniture piece, the standard of upholstery and the level of appropriate care once in use.

# Trading Policy and General Information

## General

1. WORTLEY GROUP PTY LTD ABN 84 004 305 622 ("Wortley Group") agrees to sell to the person/Company ("the Purchaser") and the Purchaser agrees to buy the goods ("the Goods") listed therein for the price specified and upon the terms and conditions hereinafter appearing.
2. Any subsequent sale of Goods by Wortley Group to the Purchaser shall be deemed to be made on the terms and conditions herein contained, unless such terms and conditions are varied in writing signed on behalf of both Wortley Group and the Purchaser.
3. The mere ordering of Goods from Wortley Group or signing of a manifest or delivery docket for Goods received by or on behalf of the Purchaser shall notwithstanding anything that may be stated to the contrary by or on behalf of the Purchaser constitute acceptance of these terms and conditions of sale.

## Terms of Payment

4. For customers with a pre-approved Wortley Group credit facility, the goods shall be paid for by the Purchaser, nett cash within 30 days from the end of the month in which the Goods are purchased. For customers without a credit facility, the goods must be paid for prior to despatch.
5. Payments may be made by Cheque, Direct Debit (EFT), B-Pay, Visa, or MasterCard only. Credit card payments using Visa or MasterCard will incur a processing fee of 1.0% plus GST.
6. Wortley Group may apply an account keeping fee of \$25.00 per month on an overdue account. Payment of overdue accounts using any credit card may incur a late fee of 3% of payment amount.
7. Wortley Group may vary the terms of payment and may withdraw credit or the offer of discount, either temporarily or permanently without notice to the Purchaser.
8. Wortley Group reserves the right to make part deliveries of any of the Goods and each part-delivery shall entitle Wortley Group to invoice the Purchaser for same whereupon payment shall be made in accordance with Clause 4 hereof.
9. Wortley Group reserves the right at any time in its sole discretion to revise the price of any of the Goods and to modify the packaging and materials for any of the Goods. The price of Goods shall be the price in effect at the date upon which the Goods are ordered by the Purchaser.

## Title

10. Property in the Goods shall not pass to the Purchaser and shall be retained by Wortley Group until payment in full in respect of the Goods and all other Goods supplied by Wortley Group to the Purchaser has been received by Wortley Group. Where Goods are paid for by cheque, property in the Goods shall not pass until such time as the cheque has been honoured.
11. Until such time as the Goods have been paid for in full the Purchaser is at liberty to sell the Goods in the ordinary course of its business, as agent for Wortley Group and shall account to Wortley Group for the proceeds thereof.
12. In the event that the Goods become constituents of other products while subject to Wortley Group's ownership, the ownership in the Goods shall remain with Wortley Group.
13. Unless otherwise agreed in writing risk in the Goods shall pass upon delivery to the Purchaser.
14. Property in all Display Equipment (including sample books) provided on a loan basis from Wortley Group to the Purchaser shall be retained by Wortley Group. Display Equipment shall be returned forthwith by the Purchaser to Wortley Group upon demand failing which the Purchaser shall pay to Wortley Group the full market value of such Display Equipment.

## Claims and Returns and Allowances

15. Any claims against Wortley Group must be made in writing within seven (7) days of delivery of the Goods except for claims for non-delivery which must be made in writing within 14 days from the date of invoice. All claims must refer to the official invoice number and date and state the reason for the claim.
16. No defective Goods shall be returned by the Purchaser to Wortley Group without specific authority from Wortley Group. No freight charges for Goods returned at the volition of the Purchaser shall be acceptable by Wortley Group unless authorised by Wortley Group in writing prior to the return of the Goods. Only freight carriers specified by Wortley Group must be used for credit claims and returns. Goods must be returned in the condition in which they were received by the Purchaser.
17. Wortley Group shall be under no obligation to accept the return of non-defective Goods, but if it does so, the provisions of the previous clause in relation to freight charges shall apply and Wortley Group may impose a restocking and freight inclusive charge of \$100 plus GST (see Clause 31). Where the partial return of Goods results in those Goods remaining with the Purchaser falling into a higher price segment, Wortley Group reserves the right to re-charge the remaining Goods at the higher price at its discretion. Goods must be returned in the condition in which they were received by the Purchaser.
18. Wortley Group shall not be liable to the Purchaser if it is unable to fill any order within reasonable time or at all.

## **Warranty**

19. The liability of Wortley Group to the Purchaser in respect of any breach of any express or implied condition relating to the Goods shall be limited to remedies as shown under the Competition and Consumer Act 2010.

Wortley Group at its option:-

- (i) Replacing the Goods or supplying equivalent Goods;
- (ii) Repairing the Goods; or
- (iii) Refunding the purchase price.

20. The Purchaser acknowledges that it is aware of the terms of the 3-Year warranty offered by Wortley Group to end users of the Goods and shall make end users of the Goods aware of such warranty and of the necessity to care for the Goods in accordance with our performance grading and care instructions.

21. Our Goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure, and for compensation for any other reasonably foreseeable loss or damage. You are entitled to have the Goods repaired or replaced if the Goods fail to be acceptable quality and the failure does not amount to a major failure.

## **Governing Law**

22. This agreement shall be construed in accordance with and governed by the laws of Victoria and the parties consent to the jurisdiction of the Courts of that State.

## **Directors Guarantee**

23. If the Purchaser is a Company then each of its Directors shall, at Wortley Group's option, enter into a form of guarantee as provided by Wortley Group.

## **Delivery - Applies to Standard and Wide Width Consignments**

24. Goods delivered to all areas of metro and greater Melbourne will incur a Flat Rate freight and handling fee of \$29 + GST PER CONSIGNMENT. We recommend collating orders to achieve lowest cost per mt/m2.

25. Goods delivered to metro Canberra, Sydney, Gold Coast, Brisbane, Sunshine Coast, Adelaide, Perth, Hobart and Launceston will incur a Flat Rate freight and handling fee of \$39 + GST PER CONSIGNMENT. We recommend collating orders to achieve lowest cost per mt/m2.

26. Goods delivered to all regional and outer regional areas will incur a Flat Rate freight and handling fee of \$49 + GST PER CONSIGNMENT up to 100mt. Regional orders over 100mt will be at freight cost.

27. Please note we do not impose any small order surcharges, nor is there any penalties for deliveries to private addresses.

28. Wortley stocked products that are not available but ordered on the same consignment will be shipped separately at our cost. Please note that indent orders placed on the same purchase order, but arriving at different times will either be held to move together or split into separate consignments at clients request and cost.

29. Export or palletised delivery will be at freight cost + GST.

## **Cut Lengths**

30. The minimum order size is 1 linear metre. We cut to the nearest 10cm.

## **Small Order Surcharge**

31. No small order surcharge is applicable to any delivery.

## **Restocking Charge**

32. A \$100 + GST charge, will be applied to any customer returns that were correctly supplied to order by Wortley Group.

## **Indent/Special Orders**

33. Where goods have been ordered from a local or overseas supplier on an indent or special order basis, they cannot be accepted for return.

34. Where an indent or special order is changed or cancelled after the suppliers' preparation, then a charge representing 50% of the order value of the changed or cancelled item/s will apply.

35. Wortley Group, at its discretion may request a deposit or full payment in advance for any order deemed large,

indent or specially produced.

36. Where goods are to be exported (ex Australia) by Wortley on behalf of the client, a 50% deposit will be requested. The balance owed is due once goods are ready for export. If a client has an active Wortley credit account, the export balance owed will be applied to that account for payment within our normal 30 day terms. This applies to both sea and air movements.

37. Where Wortley facilitates movement of goods directly from an overseas supplier to a client nominated overseas destination, a 50% deposit is requested upon placement of order. The balance owed is requested to be paid before movement of shipment. Use of any available credit facility is not applicable in this scenario.

### **Deposit Payments**

38. If any order is cancelled or changed where a deposit has been paid, that deposit will be treated as non-refundable at the discretion of Wortley Group.

### **Stock Advice**

39. On occasion, some products may be out of stock. Upon placement of an order, Wortley Group will immediately advise of the expected availability date. If precise information is not immediately available, Wortley Group will obtain such information and advise the Purchaser as soon as possible. If an advised availability date is adjusted, Wortley Group will advise the Purchaser of the adjustment by phone or email.

### **Cancellations**

40. Order cancellations by Purchasers must be advised in writing via fax, mail or email. The cancellation notification must include the Purchaser's account name, item to be cancelled and where applicable, the purchase order number.

### **Consignment Delay Inquiry**

41. In the event of your not receiving an expected delivery, Wortley Group will trace the consignment with the freight company and arrange for prompt delivery. To assist staff to trace the consignment as quickly as possible please provide us with as much of the following information as possible:

Fabric name and colourway	Meterage
Customer account name	Delivery address
Date ordered	Purchase order number
Contact name and phone number	

### **Consumer Concerns**

42. Wortley Group procedure for handling Customer Concerns provides a timely method of resolution.

A Customer Concern Form is provided to the manufacturer/retailer for completion with all relevant details. An example of the concern, usually a removable cushion may be requested.

If required, an onsite inspection will be arranged by the Wortley Group representative. All parties to the concern are informed of the resolution.

### **Colour Matching**

43. Please examine carefully before cutting to verify that colour, pattern, etc. are as ordered. Since no two print runs or dye lots can be colour matched identically during processing, there is bound to be a slight amount variation. We will, however, always attempt to ship a satisfactory commercial match. Any fabric that is cut cannot be accepted for return. Should an exact match be required, please submit a cutting with your order.

### **Flame Retardant Certificate**

44. Flame Retardant Certificates are available, where applicable, upon request.
